

## PENNY OUR COLLIE

By Tim Roberts

When I came home from school on Monday, I opened the door and walked into the living room and to my surprise what did I see? My parents bought me a Collie Puppy. She is so cute she ran up to me and licked my face. We named her Penny. We spoke about this at the dinner table a few days ago. They said they would look for one, and they found her. I am so happy to have a friend like Penny to take care of. She was sleeping in my room the first week in a box.

The Second week she wanted to sleep in bed with me. So, we placed some stairs leading up to my bed. She would come up at night and cuddle next to me.

I know I had to take care of her every day. I would make sure she had plenty of water in the morning and some dog food before I left for school. I always let her out in the backyard which was fenced in before I left for school so Penny could go to the bathroom.

It was so special having her as a member of the family. When people came over to the house to see her, they spoke to her and treated her as a member of the family. Penny really completes our family. She had dinner when we ate and she watched TV with me on the sofa. Penny is more than a Pet she is a member of the family.
