

Name: _____

A day at the beach

Every summer my whole family takes a trip to the beach. I love going to the beach. One of my favorite things to do is taking walks on the beach and finding different kinds of sea shells. We find lots of different sea shells. One time we saw a big sea turtle and a sting ray on our walk! We always build sandcastles and play in the ocean. My family always has a lot of fun at the beach!

Circle the correct answer
