

The Wagon Ride

One day Johnny found an old, red wagon. He wanted to take some of his friends on a ride. He put his pet dog and cat in the wagon. He walked around the block for awhile until he came across a little bunny rabbit. He thought the bunny looked lonely.

Johnny picked up the bunny and put him in the wagon. He continued pulling the wagon around the block a few more times. He wanted to bring all his animals home to meet his mom and dad. He took the wagon back to his house and went inside to get his parents. He showed them his friends and they were so happy they brought out some food for the dog, cat and bunny. Johnny sat down and ate his lunch with

the animals. After lunch they would do more exploring in their old, red wagon.

Story Questions
