

# THE WEATHER REPORT

One Morning Joanie's mom had come into her room to announce that school was cancelled for the day. School was cancelled due to the low temperatures and wind gusts that were said to be up to 70 miles per hour. Joanie could not believe this was true. First, she turned on the television to double check that her mother was correct. Sure enough the temperature was negative 12 and the wind had a lot to do with those low temperatures. Next, Joanie proceeded to check the thermometer outside to guarantee the meteorologist on television was correct. Finally, Joanie was certain that school was cancelled and the day was hers to plan and play with few time restrictions. Joanie cannot wait until the season changes to summer so she does not have to factor in her play time with school or cold weather.

## Story Questions - Circle the correct answer
