The diagram illustrates a multiplication process using a 3D perspective. It features three parallel rectangular grids. The top grid is outlined in red and contains several empty circles. The middle grid is outlined in black and contains the numbers 5, 8, 9, 9, 6, 11, 8, 5, 6, 6, 11. The bottom grid is also outlined in black and contains the numbers 3, 5, 4, 6, 7, 7, 9, 4, 7, 7. An equals sign (=) is positioned to the left of the middle grid, and a multiplication sign (x) is positioned below it. Two vertical dashed green lines run parallel to the left and right sides of the grids, connecting their corners. A faint watermark 'Wordwall' is visible in the background.
